The Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act of 2010 ("Act") impacts the federal gift, estate and generation skipping transfer tax (together referred to as "transfer tax") through 2012. Among other changes, the Act temporarily establishes maximum exemption amounts of \$5,000,000 per person for transfer tax purposes (which amount is adjusted for inflation in 2012 to \$5,120,000), establishes a maximum transfer tax rate of 35% and provides for portability of the estate tax exemption between spouses. These changes, however, are only in effect through December 31, 2012. Unless Congress enacts new legislation, on January 1, 2013 the transfer tax laws will revert back to the laws (e.g. exemption amounts of \$1,000,000 and generally 55% maximum tax rates) that were in effect in 2001. At this time, it is not clear what steps, if any, Congress will take to revise the transfer tax laws for years beyond 2012. Future changes in transfer tax exemption amounts and transfer tax rates may impact the appropriateness of any transfer tax planning strategy or product sale. Clients need to understand that tax law is always subject to interpretation and legislative change.
